Navigation

Navigation Areas

The CineSat Support Pages provide you with a number of navigation elements. From top to bottom you find:

Page Header

- a Banner including images, logos, and the site title
- a Trace Line with the last visited pages
- a Menu Bar with drop-down menu choices
- an Action Bar with frequently used action links

Content Area

- left (and possibly right) sidebars
- the page content in the center

Page Footer

- a page and user information line
- footer action line (with edit and back-to-top links)
- a legal information line with links to legal documents

Navigation Elements

Banner

The banner consists of linked images, logos, and titles. All banner links lead you to the site's top level page (Home).

Trace Line

An extremely useful list of the last visited pages. It allows you to quickly navigate to recently visited pages and to open them in separate browser windows.

Menu Bar

The gray menu bar gives you an application-style drop down menu access to important functions and information. The content of the menu bar depends on whether you are logged-in or not and on your user role and rights.

Action Bar

The action bar contains links to important or frequently used functions, like

- Page Edit (if you have write permission for this page)
- Home button (brings you to the top level start page)

- Favorites button (adds a page to your Favorite list; only for logged-in users)
- PDF export
- Search field
- Login / logout

Sidebars

Context links and buttons depending on the visited page and your user roles.

Links in Pages

Links in these Support Pages are highlighted by the following colors:

- Internal link to another page
- External link to another website
- Non-existing / broken internal link

A left mouse click on an internal link will open this page in the same window, while external links are always opened in a separate window. You can open an internal link

- in the same browser window with left click
- in a new browser window with SHIFT + left click
- in a new browser tab with CTRL + left click
- in a new browser window or tab by right-clicking and selecting one of your browser's choices for this link

Keyboard Keys

Key	Function
Home / Pos1	Go to top of page
End	Go to bottom of page
F3	Search in this page

Mouse Clicks

Mouse Gesture	Function
Left click on internal link	Open link in same window
